Why should you be sure that the start price of the token will reach 1 USDF = 0.5625 USD?

Since initially 45% of the pre-sale tokens were sent to the dead wallet, 45% of the USDF tokens fell. This is done so that in the future, the price of the token will rise and become stable. We also made an audit of the token so that our holders had no doubts about our project.

Will the token price reach over \$15 in the future?

Yes, it will, because after the sale of all NFT characters, we plan to add more liquidity to make our game one of the most demanded on the market.

Will there be a big pump on the market after listing?

Before the pre-sale of the token, we plan to send an application to Coinmarketcap as an ico, in order to gain the maximum number of fans and holders for the USDF project.

What is the connection between the DUSD token and USDF token partnership?

In the future, after the listing of the exchange and the Coinmarketcap, a pair of USDF and DUSD will be created in a limited amount, where 1 DUSD = 1 USDF. According to the partnership, this will be 3% of the USDF token.

Economic game Baby Inu

How Baby Inu game works?

01. Go to OpenSea. Log in through your Meta Mask decentralized wallet or Trust wallet. Buy an NFT hero to play. Heroes are different, they are only 10,000. And each hero has its own advantage.

02. After purchasing the NFT Baby Inu hero. You will receive a secret key that you need to keep in the personal account of the

game and activate the character. You can activate several characters at the same time.

03. After activating a certain NFT character, you will have the function to mine USDF token. And you will start receiving a stable amount of USDF tokens every day. The amount of USDF tokens is linked directly from the NFT hero. Each hero mines a different amount of USDF tokens every day.

What is the value of NFT heroes?

Each NFT hero has their own unique characteristics. The uniqueness lies in the fact that each hero can mine a different amount of USDF tokens daily.

The minimum amount of tokens that a specific NTF character can mine starts from 10 to 5000 USDF tokens per day. This determines the uniqueness of a particular NTF character.

What will happen to my NFT hero after the sale in OpenSea?

If you decide to sell your NFT hero in OpenSea, and a third party buys your NFT hero from you and activates the secret key in his personal account, which he will receive after the purchase, the hero will be blocked in your personal game account.

Can I activate several NFT heroes at the same time in my account in the game?

Yes, you can simultaneously activate an unlimited number of NFT heroes. and these heroes will simultaneously mine the daily USFD token. Each NFT character will mine a certain amount of USDF tokens. All accumulated tokens will be displayed in your personal account. And they will be available for withdrawal when the minimum amount of USDF tokens is accumulated.
